## YANKEES HOLDING 38 MILES

Washington.—American seidiers are now holding the lighting line for a distance of 38 miles on the western front, according to information given members of the house military committee at the weekly conference with Secretary Baker and General March, chief of staff.

This mileage is held by "all-Ameriean" forces under command of American officers, located at six different places along the fighting line. Other Americans are at the front with British and French units.

Members of the committee were told that there was no thought of diminishing the movement of troops across the Atlantic because of the operation of U-boats off the American coast.

Italians Win on French Front. Paris.—The Germans launched a new attack against positions held by the Italians at Bligny. After hard fighting the Germans were completely repulsed with heavy losses, leaving prisoners in the hands of the ailies. according to a statement issued by the war office. The French have repulsed a German attack in the region of Antbeuil (west of the Oise), the state-

Decay?

WE know that when food is left exposed to warm air for a given time it ferments or turns sour. Food eaught between the testh ferments, and this fermentation is usually caused by very small plants called micro-organisms. Food depasts in the mouth or in between the testh soon ferment and decompose, forming an acid, which is a solvent for the cens out of the testh. One decomposituath affects its neighboring tooth.
